Paper 3 Structured Questions **October/November 2017**

MARK SCHEME

Maximum Mark: 150

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE®, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is a registered trademark.

Question	Answer	Marks
1(a)	Not-for-profit / Profit-making Subscriptions / Sales revenue Income and expenditure account / Income statement Accumulated fund / Capital / Equity Receipts and payments account / Bank account Surplus of income over expenditure / Profit Excess of expenditure over income / Loss **(1 mark)** × four differences	**4**
1(b)	RS Rowing Club Income and Expenditure Account for the year ended 31 March 2017 Members' subscriptions **W1** — $ $ $10 150 **(3)** Profit on sale of sports equipment **W2** — $291 **(2)** Regatta Entry fees $4 200 Regatta expenses $2 456 Prizes $325 ($2 781) $1 419 **(1)** $11 860 Less expenses Rent $2 800 General expenses $1 379 Wages of boatman $3 500 Depreciation of boats and equipment $1 280 **(1)** ($8 959) Surplus of income over expenditure $2 901 **(1) (OF)** **W1**: Members' subscriptions 10 300 + (350 + 650) **(1)** – (700 + 450) **(1)** = 10 150 **(1) (OF)**	**8**

Question	Answer	Marks
1(b)	**W2** Sale of sports equipment |	\$ | \$ | | Sales | | 1 850 | | Opening inventory | 364 | | | Purchases | 1 624 | | | Closing inventory | (429) | | | | | (1 559) **(1)** | | Profit transferred to income and expenditure account | | 291 **(1)OF** |	
1(c)	RS Rowing Club Extract from statement of financial position at 31 March 2017 |	\$ | | Accumulated fund at 1 April 2016 | 40 614 | | Surplus of income over expenditure | 2 901 **(1)OF** | | Accumulated fund at 31 March 2017 | 43 515 **(1)OF** |	**2**
1(d)	The club will receive one-off payments from members, however in accordance with the matching concept, this should not be credited in full to the income and expenditure account as it is not earned in the period received. The income should therefore be spread over an appropriate period to match funds received with the benefits provided to members. The payments received will be represented as a credit in the statement of financial position as deferred income. The club should transfer amounts to the income and expenditure account from the deferred income account in equal instalments over a period it can determine as reasonable. This may depend on the profile of the members and expected use, but should not be for a lengthy period of time. As the lifetime fee is \$400 and the normal annual membership is \$50, it might seem appropriate to transfer the amounts in equal instalments over 8 years. **(1 mark)** for each valid point to a max of 4 marks.	**4**

Question	Answer	Marks
1(e)	Investment at fixed interest rate – annual income $2625. **(1)** Build a boat-house – annual rental income $1250, rent saved on old premises $2 800, total extra income $4050 **(2)** However, if the investment at fixed interest rate is chosen, after 3 years the funds will be available for other investments which may be more attractive. Building a property is a long term commitment which cannot be changed and may incur other costs, such as maintenance. On purely financial grounds, the club should use the funds to build the new boat-house. **(3 marks for calculations, 3 marks for reasons, 1 for recommendation).**	**7**

Question	Answer	Marks
2(a)	A revaluation reserve arises when non-current assets are revalued at an amount greater than their current net book value.	**1**
2(b)	Wembo and Bob capital accounts |	W		B			W		B	
---	---	---	---	---	---	---	---	---	---
Vehicles	11 000	**(1) both**	12 500		Balance b/d	100 000	**(1) both**	60 000	
Preference shares	36 000	**(1)**	24 000	**(1)**	Bank **W3**	2 475	**(1)OF**	9 525	**(1)OF**
Ordinary shares	59 375	**(1)**	35 625	**(1)**	Goodwill **W1**	7 500	**(1)***	5 000	**(1)***
Loss in realisation **W2**	3 600	**(1)***	2 400	**(1)***					
	109 975		74 525			109 975		74 525	| **W1** 90 000 + 36 000 + 3 500 + 13 000 = 142 500 – 155 000 = 12 500 **(1)** goodwill **W2** 142 500 + 4 900 – 8 100 – 3 800 + 11 000 + 12 500 = 159 000 – 165 000 **(1)** = 6 000 **(1)** loss on realisation * if the loss and goodwill are combined as a single entry, the figures will be 3 900 **(2)** and 2 600 **(2),** both on the credit side. **W3** –5 000 + 4 900 – 8 100 – 3 800 = –12 000 bank **(1)**	**16**

Question	Answer	Marks
2(c)	Extract from the statement of financial position for Chantelle Limited at 31 March 2018 $ Equity and reserves ordinary shares (300 000 + 76 000) 376 000 **(1)** preference shares 60 000 **(1)** Share premium (19 000 + 75 000) 94 000 **(1)** Revaluation reserve 25 000 **(1) both** Retained earnings 40 000 ***** Total equity 595 000	**4**
2(d)(i)	Ordinary shares The dividend on ordinary shares is variable and dependent on the levels of profit **(1)** so has greater reward when the profits are high. **(1)** Possible involvement of Wembo and Bob in managing the company through voting rights **(1)** **Max 2**	**4**
2(d)(ii)	Preference shares Whereas cumulative preference shares have a fixed dividend of $4 200 per year, **(1)** which if profits are low one year will be paid the next. **(1)** So limited risk. **(1)** **Max 2**	

Question	Answer	Marks
3(a)(i)	Aleksander Goods on consignment account 2017 $ 2017 $ Jun 30 Income statement 20 000 **(1)** Apr 2 Consignment account 20 000 **(1)**	**2**

Question	Answer	Marks
3(a)(ii)	Consignment account 2017 — $ — 2017 — $ Apr 2 Goods on consignment a/c 20 000 **(1)** — Jun 30 Benji (sales) 27 200 **(1)** Bank 120 **(1)** — Balance c/d 5 560 **(4)** Bank 6 080 **(1)** Benji 1 600 **(1)** Jun 30 Benji (commission) 2 720 **(1of)** Income statement 2 240 **(1)OF** 32 760 — 32 760 Jul 1 Balance b/d 5 560 **(1of)** Inventory: 20 000 **(1)** + (120 + 6 080 + 1 600) **(1)** × 40 / 200 **(1)** = $5 560 **(1of)**	**12**
3(a)(iii)	Benji 2017 — $ — 2017 — $ Jun 30 Consignment a/c (sales) 27 200 **(1)** — Apr 2 Consignment a/c 1 600 **(1)** Jun 14 Bank 21 000 **(1)** Jun 30 Consignment a/c (commission) 2 720 **(1)OF** Balance c/d 1 880 27 200 — 27 200 Jul 1 Balance b/d 1 880 **(1)OF**	**5**
3(b)	Profit per container had been 2 240 / 160 = $14. **(1)OF** Now there is a loss per container of $6. **(1)OF** Could Aleksander find a cheaper means of freight? **(1)** Could Benji's commission be reduced? **(1)** If commission could fall from $17 per container to below $11 per container then the consignment would be profitable again. **(1)OF** Could the selling price be increased? **(1)** Are there other selling opportunities? **(1)** **[max 4]**	**4**

© UCLES 2017

Question	Answer	Marks
3(c)	Advertising is not a purchase/production cost. **(1)** Advertising is not part of bringing a product to its existing location or condition. **(1)** Its inclusion would contravene IAS 2. **(1)** **[max 2]**	**2**

Question	Answer	Marks
4(a)	A share premium arises when a share is sold for more than its nominal value **(1)**. The difference between the selling price and the nominal value is called the share premium **(1)**.	**2**
4(b)	400 000 × 60% = 240 000 shareholders. **(1)** 240 000 × 1.75 = $420 000 **(1)** $550 000 – $420 000 = $130 000 **(1)OF**	**3**
4(c)(i)		**9**
4(c)(ii)	Note: $25 600**(1) OF** Ordinary share dividends proposed at the year-end. **(1)** W4 640 000 × 0.04 = 25 600	**2**

4(c)(i)

	Ordinary share capital		Share premium		Revaluation reserve	Retained earnings	
	$000s		$000s		$000s	$000s	
At 1 April 2016	400		50		150	350	**(1) row**
Rights issue	240	**(1)OF**	180	**(1)**			
Profit for the year						138.7	**W1 (4)**
Dividend paid						(8) **W2**	**(1)OF row***
At 31 March 2017	640		230		150	480.7	**(1) row**

must not include proposed dividend or the debenture

W1 (245 000 – 70 000 **(1)** – (130 000 × 0.05 × 3/12) **(1)of** = 173 375 – (173 375 × 0.2) **(1)**
= 138 700 **(1OF)**
W2 ordinary interim div 0.02 × 400 000 = 8 000 **(1OF)**

Question	Answer	Marks
4(d)	EPS **1** For current year profit after tax / number of ordinary shares 138 700 / 640 000 = $0.2167 $(0.22) **(1)OF** **2** Assuming profits similar amount to previous years 138 700 / 400 000 = $0.347 **(1)OF** so shareholder is correct **(1)** that EPS has fallen, as there has not been a corresponding increase in profit to the level of increase in the number of shares. **(1)** If profits increase by 20% in the next year 166 440 / 640 000 = $0.26006 **(1)OF**. EPS will increase but will still not reach the level it was before the rights issue. **(1)** Any future issue of ordinary shares will decrease EPS further, unless there is a significant increase in profits **(1)**. Profits have to reach $222 080 to achieve an EPS of $0.347 with the current amount of shares **(1).** Max 4 marks on rights issue. A loan will be a long term liability **(1)** which will affect cash and profits. Cash will be reduced as the loan and interest is repaid **(1)** and profits will be reduced by the interest. **(1)** Gearing will also increase as long term liabilities increase. **(1)** The higher the rate of interest, the lower profits will be and so EPS will reduce. **(1)** Max 4 marks on loans. Recommendation based on the above comments. **(1)**	**9**

Question	Answer	Marks

6(b) Working

	April	May	June	July
Sales (in unit)	5 000	8 000	4 000	3 000
Unit sold	5 000	8 000	4 000	3 000
Closing inventory	4 000	2 000	1 500	2 000
Opening inventory	0	4 000	2 000	1 500
Purchases (in unit)	9 000	6 000	3 500	3 500
	$	$	$	$
Sales ($64 each)	320 000	512 000	256 000	1 088 000
Purchases ($40 each)	360 000	240 000	140 000	740 000
April sales	63 040	96 000	160 000	
May sales		100 864	153 600	
June sales			50 432	
July sales				
	63 040	196 864	364 032	

Operating expenses $43 000 – ($84 000 / 60) = $42 200

<table>
<tr><th>Question</th><th>Answer</th><th>Marks</th></tr>
<tr><td>6(c)</td><td>Responses may include:

Cash flow not bad, i.e. has net operating cash inflow; cash received from customers $994 560 ($63 040 + $196 864 + $364 032 + $370 624) is greater than operating cash outflows $908 800 ($360 000 + $240 000 + $140 000 + $42 200 × 4)

Cash deficit in May and June, should plan ahead.

Sales not evenly distributed, i.e. seasonal trade, and this will affect the regularity of cash inflow.

Not many trade receivables take the advantage of cash discount, Luke may consider to increase the cash discount.

More than 50% of trade receivables pay 2 months after sale, Luke should consider to tighten its credit policy.

Maybe the business is a new business and Luke has only one supplier. It appears that Luke does not have much bargaining power, as he has to pay within one month following the purchases and is not allowed any cash discount.

Keeping too much inventory may have negative impact on cash flow.

Accept other valid responses.
