Paper 3 Structured Questions **October/November 2018**

MARK SCHEME

Maximum Mark: 150

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

© UCLES 2018

GENERIC MARKING PRINCIPLE 5: Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).
GENERIC MARKING PRINCIPLE 6: Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

	Total equity and liabilities	2 117 000		

Question	Answer	Marks
2(d)	Capital accounts Alfie Bob Alfie Bob Ordinary shares 360 000 240 000 **(1)** Balance b/d 285 000 274 000 Cash / Bank 52 800 Profit on realisation 28 200 **(1)** 18 800 **(1)** Cash/Bank 46 800 **(1) OF both** 360 000 292 800 360 000 292 800	**4**
2(e)	The 2017 ROCE of G Limited is 5.78% ($69 000 / $1 194 000). **(1)** After acquiring the partnership business, there is an increase in profit **(1)** of $31 000 ($100 000 – $69 000). As G Limited paid $632 000 to acquire the partnership business, the additional profit represents a return of 4.91% ($31 000 / $632 000) from the investment. **(1)OF** Comparing 5.78% with 4.91%, the additional investment will dilute the ROCE **(1)** in 2017, assuming G Limited can still make 5.78% ROCE without acquiring the partnership business in 2017. Therefore, the acquisition of the partnership business does not increase the profitability in 2017. **(1)** However, as G Limited has paid $30 000 for the goodwill, it means that the acquisition will bring benefits to G Limited in the long run. **(1)** Decision **(1)**, max **4 marks** for comments	**5**

Question	Answer	Marks
3(a)(i)	To aid decision making as to whether to continue as a shareholder **(1)** as audited financial statements ensure that the stewardship function of directors are carried out properly **(1)** **Accept other valid answers.**	**2**
3(a)(ii)	To make decision whether to invest or not **(1)** as they can be assured that the assets of the business are fairly valued. **(1)** **Accept other valid answers.**	**2**
3(a)(iii)	To make decision whether or not to grant loan **(1)** as the bank can be assured that the security of the loan is fairly valued. **(1)** **Accept other valid answers.**	**2**
