GEOGRAPHY **0460/23**

Paper 2 **May/June 2013**

1 hour 30 minutes

Candidates answer on the Question Paper.

Additional Materials: Ruler
Plain paper
Calculator

1:25 000 Survey Map Extract is enclosed with this question paper.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use a soft pencil for any diagrams, graphs or rough working.
Do not use staples, paper clips, highlighters, glue or correction fluid.
DO **NOT** WRITE ON ANY BARCODES.

Answer **all** questions.
The Insert contains Photograph A for Question 2.
Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

The Survey Map Extract and the Insert are **not** required by the Examiner.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

PA CAMBRIDGE

(b) Describe the course taken by the District Boundary in the extract.

.....

.....

.....

.....

.....

.....[3]

(c) Describe the features of the River du Poste between eastings 16 and 18.

.....

.....

.....

.....

.....

.....

.....

.....[4]

(d) **(i)** Look at the villages of Lalmatie, Haut de Flacq and Happy Village in the north east of the map. For each description in the table below, write the name of the village which best fits that description.

description	name of village
most nucleated	
most linear	
most industrial	
on the lowest site	

[4]

(ii) Look at the services in each of the three villages in **(d)(i)**.

Which village is likely to have the largest sphere of influence? Give one reason for your answer.

Name of village .....

Reason .....

.....[1]

2 Study Photograph A (Insert) of a limestone coast. Use Photograp questions.

(a) Identify the coastal features which are indicated by the letters from:

arch, bay, cave, coral reef, headland, spit, sta

Write your answers in the table below.

letter	name of feature
W	
X	
Y	
Z	

[4]

(b) Name the landform which once joined **W** and **X** on Photograph A.

.....[1]

(c) Use Photograph A to suggest why feature **Y** has been formed at that height on the cliff face.

.....

.....[1]

(d) What evidence is there that Photograph A was taken when the tide was low?

.....

.....[1]

(e) Name **one** erosion process that may have formed the wave-cut notch shown on Photograph A.

.....[1]
