Cambridge International General Certificate of Secondary Education

BIOLOGY **0610/31**

Paper 3 Theory (Core) **May/June 2017**

MARK SCHEME

Maximum Mark:80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2017 series for most Cambridge IGCSE®, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

® IGCSE is a registered trademark.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

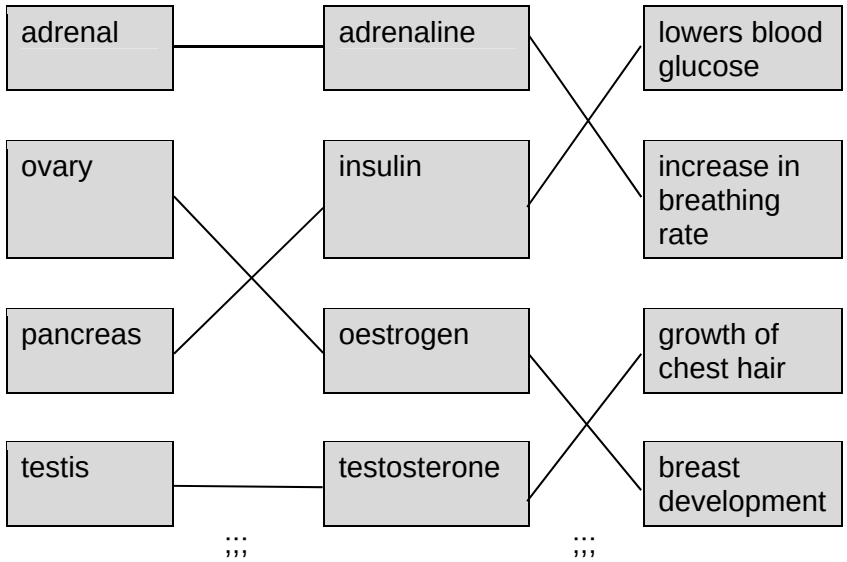

© UCLES 2017

Mark schemes will use these abbreviations

- **;** separates marking points
- / alternatives
- **I** ignore
- **R** reject
- **A** accept (for answers correctly cued by the question, or guidance for examiners)
- AW alternative wording (where responses vary more than usual)
- AVP any valid point
- **ecf** credit a correct statement / calculation that follows a previous wrong response
- **ora** or reverse argument
- ( ) the word / phrase in brackets is not required, but sets the context
- underline actual word given must be used by candidate (grammatical variants excepted)
- max indicates the maximum number of marks that can be given

Question	Answer	Marks	Guidance
1(a)	**A** – iris ; **B** – pupil ;	**2**	
1(b)(i)	(pupil / **B**) becomes smaller / constricts / AW ;	**1**	**ecf**
1(b)(ii)	reduces the amount of light (entering the eye) / stops too much light (entering eye) ; protects, retina (cells) / receptors / sensors, from damage / AW ;	**2**	

Question	Answer	Marks	Guidance
2(a)		**6**	for **each** column of lines: 3 or 4 correct = 3 marks 2 correct = 2 marks 1 correct = 1 mark **R** if more than 1 line coming from a box

Question	Answer	Marks	Guidance
2(b)	in the blood / in the plasma ;	**1**	**A** in the blood stream / in the blood vessels / circulatory system / in the veins / arteries / capillaries **R** inside any blood cell (including platelets)

Question	Answer	Marks	Guidance
3(a)	1 dm^3 per min(ute) ;	**1**	
3(b)	liver ; gall bladder ; brain ; kidney ; testes ; ovaries ; pancreas ; lungs ; spleen ; uterus ; AVP ; ;	**2**	**A** any structure that is an organ **A** artery / vein / bone
3(c)(i)	1100 (%) ; ;	**2**	ecf from **3(a)** 11 ÷ 1×100 or 12 – 1÷1×100
3(c)(ii)	oxygen ; glucose ;	**2**	either order

Question	Answer	Marks	Guidance
3(c)(iii)	more energy / ATP, needed by heart muscle / it / (skeletal) muscle ; from respiration ; because (heart muscle) has to contract more, strongly / forcefully ; (heart muscle) has to contract, more frequently / heart beats faster ; (because) blood flow to (skeletal) muscles increases / blood flows faster to the (skeletal) muscles ;	**3**	AW throughout
3(d)(i)	data quote used to support either statement ; *alimentary canal:* decreased (blood flow) / goes down / AW ; *skin:* increased (blood flow) / goes up / AW ;	**3**	
3(d)(ii)	digestion / absorption not a priority / AW ; blood (volume), needed elsewhere in body / to go to the muscles / AW ; AVP ;	**1**	

Question	Answer	Marks	Guidance
3(d)(iii)	1 exercise / muscles release heat ; 2 (and so) the body gets hotter / body temp increases ; 3 blood carries heat ; 4 heat lost at skin (surface) ; 5 ref to homeostasis / precise description of ;	**3**	

Question	Answer	Marks	Guidance
4	glucose ; lactic acid ; alcohol ; carbon dioxide ;	**4**	

<table>
<tr><th>Question</th><th>Answer</th><th>Marks</th><th>Guidance</th></tr>
<tr><td>5(a)</td><td>
<table>
<tr><th>D / E</th><th>adaptive feature</th><th>help in survival</th></tr>
<tr><td>D</td><td>(canine) teeth
large mouth / jaws / beak
(long / strong), tail
webbed, toes / feet
scaly / rough, skin / has scales
markings / AW
eyes on top of head
AVP
;</td><td>seize / eat prey
swallow / catch / grip large prey
swimming / defence
swimming
prevent dehydration / waterproof
for camouflage
vision when submerged
;</td></tr>
<tr><td>E</td><td>claws / nails / talons
beak
wings
(tail) feathers
forward facing eyes
AVP
;</td><td>catch / tear prey / perching / defence
tear / hold food / offence / defence
flight / search for prey / hunt / escape predators
retain body heat / helps in flight
to see prey from a distance
;</td></tr>
</table>
</td><td>4</td><td>feature and reason must match
feature must be visible
AW throughout</td></tr>
</table>
