CAN NUMBER

7983239828

ENVIRONMENTAL MANAGEMENT **0680/12**

Paper 1 **October/November 2013**

1 hour 30 minutes

Candidates answer on the Question Paper.

Additional Materials: Ruler

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use a soft pencil for any diagrams, graphs or rough working.
Do not use staples, paper clips, highlighters, glue or correction fluid.
DO **NOT** WRITE IN ANY BARCODES.

Answer **all** questions.
Electronic calculators may be used.
You may lose marks if you do not show your working or if you do not use appropriate units.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

1 The diagram shows some of the layers of rock that form the bul
Arizona, USA.

(a) (i) On the diagram, mark with an **X** the oldest layer of rock shown. [1]

(ii) Put a circle around the type of rock that is shown in the diagram.

sedimentary **igneous** **metamorphic**

[1]

(iii) Choose **one** of the rocks named in the diagram and suggest an industrial use for it.

rock type .....

industrial use .....

.....

[1]

(iv) One of the rock types named in the diagram has been changed, by natural processes, into marble in some other parts of the world. Explain how marble is formed.

.....

.....

.....

.....[2]

(b) (i) Describe how coal is formed.

.....

.....

.....

.....

(ii) The table below shows changes in the various energy between 1995 and 2005.

energy source	1995 / million tonnes oil equivalent	2005 / million tonnes oil equivalent
coal	228	205
oil	156	225
natural gas	64	93
nuclear	13	16
renewables	2	25

Describe what the table shows about the changing importance of coal compared with the other energy sources between 1995 and 2005.

.....

.....

.....

.....[2]

(iii) Suggest **one** reason for the changes.

.....

.....[1]

2 Between 1951 and 1974 crop yields increased due to the Green
Look at the table which shows changes in crop yields.

year	average yields / kg per hectar		
	wheat	rice	maize
1951	901	892	565
1974	2408	2045	1610

(a) (i) Use the data to complete the following bar graph, includi
a suitable key.

[2]

(ii) Which crop shows the greatest increase in yield between 1951 and 1974, and what was that increase in yield?

crop ..... increase ..... [1]

© UCLES 2013

(b) Suggest what changes in agriculture and farming practice h
crop yields.

.....

.....

.....

.....

.....

.....[3]

(c) Describe and explain problems for farmers in achieving these high yields.

.....

.....

.....

.....

.....

.....

.....

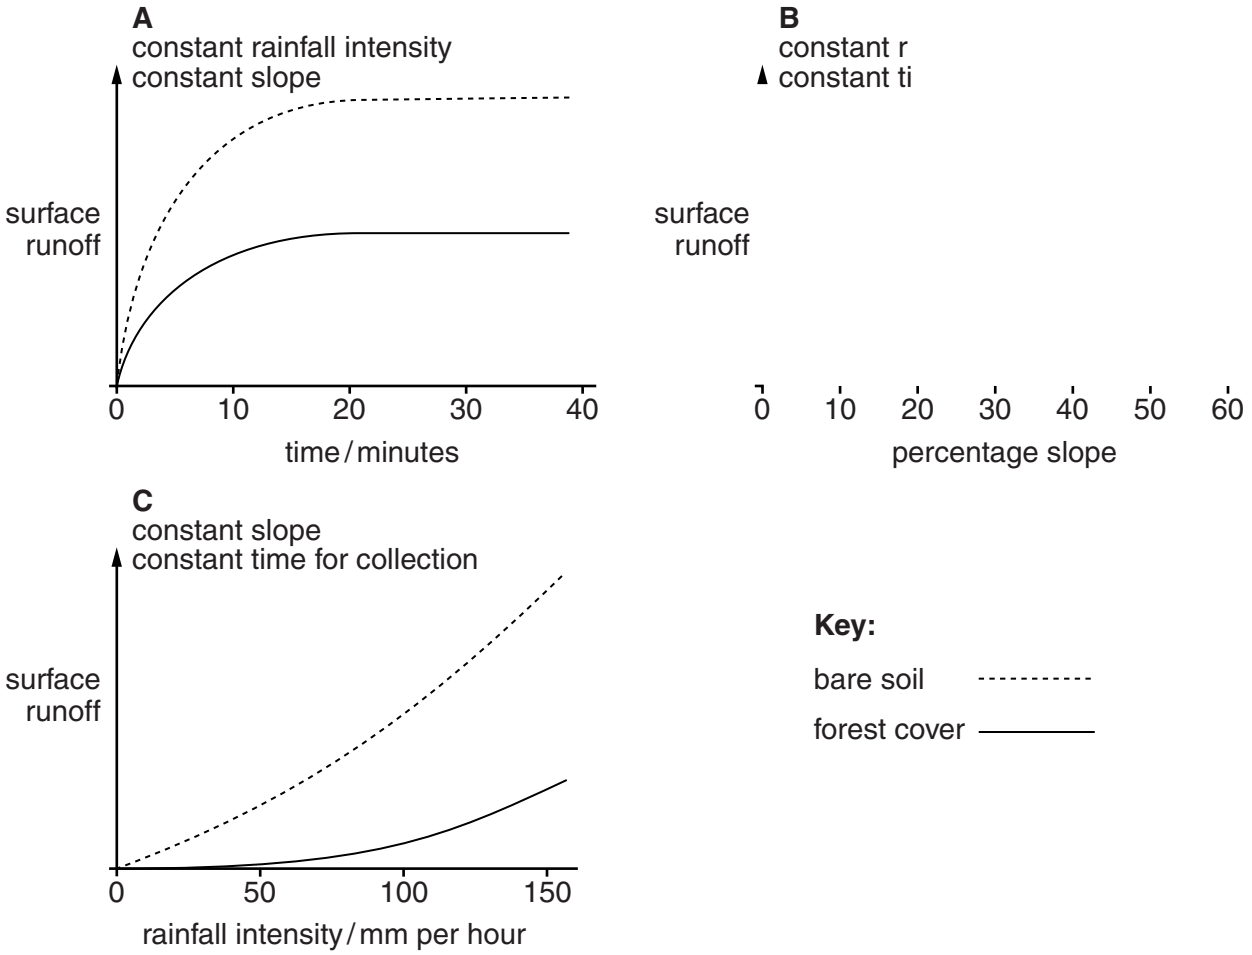

.....[4]

(ii) Soil erosion can be reduced by effective land manageme
ploughing.
Describe and explain how contour ploughing can reduce

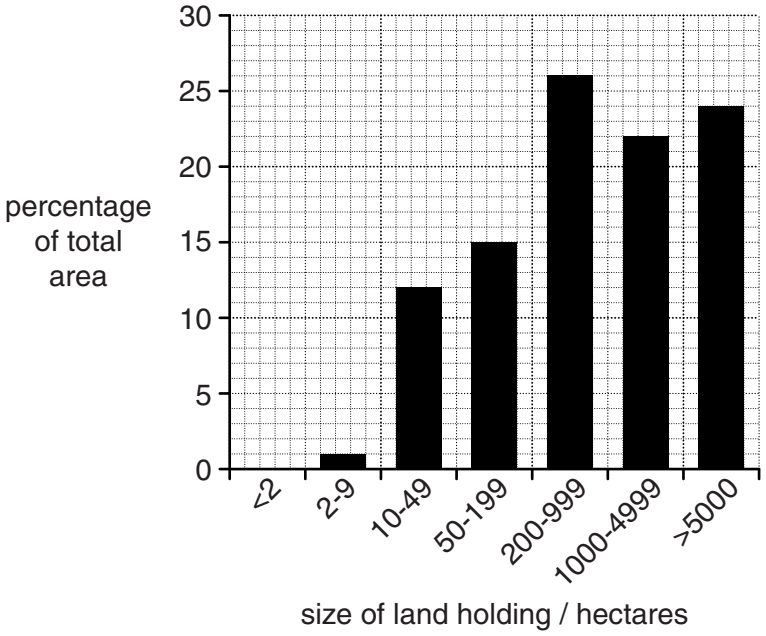

.....

.....

.....

.....

(b) (i) Study the bar graph showing the sizes for farms in Brazil.

Describe what the graph shows about the size of farms in Brazil.

.....

.....

.....

.....[2]

(ii) Suggest whether you think that large farms make soil conservation more or less likely than small farms. Explain your answer.

.....

.....

.....

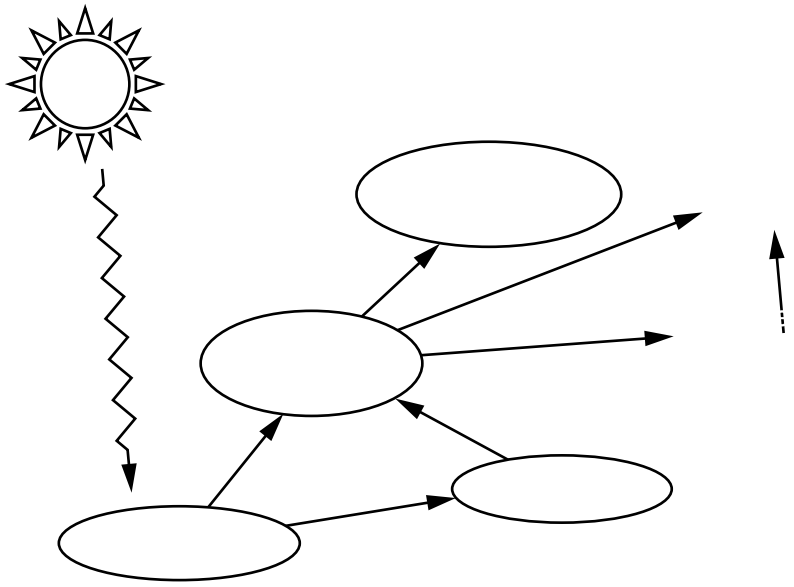

.....[2]
